

To run code in colab because I have not submit 822 mb glove file first download directly in colab by these code:

```
!wget http://nlp.stanford.edu/data/glove.6B.zip  
!unzip glove.6B.zip
```

These code will download the glove file in colab.

Then these code to run

```
!pip install transformers datasets torch scikit-learn  
nlk matplotlib scipy
```

```
!python main.py
```
